Skills

JavaScript, React.js, Markdown, Version control, Google Docs, Jira, API Documentation, Angular.JS

Experience

Software Engineer

Regnify solutions • Ilorin, Kwara
10/2021 - Present

- Developed an interactive dashboard for an AI-driven healthcare application that predicts hospital events.
- Maintained software products including programs, webpages, and databases.
- Collaborated with cross-functional teams to ensure alignment between development and documentation.

Front-End Developer

FormPlus • Lagos
04/2022 - 12/2022

- Contributed to migrating a form builder application from Angular.js to React.js.
- Optimized analytics dashboard performance by implementing data caching, reducing load time from 20 to 5 seconds –
- Worked closely with UX designers to implement responsive user interfaces

Content Writer

Opera News • Lagos
11/2019 - 01/2021

- Produced engaging and timely news articles for the platform.
- Collaborated with editors to ensure content quality and adherence to style guidelines.
- Developed skills in SEO optimization and headline writing to increase reader engagement

OpenSource Experience

Piscina

- Created a documentation website from scratch using Docusaurus.
- Wrote 40+ pages of documentation, utilizing the project's README, code files, and blog articles.

0XOpenbytes Picture

- Read through Swift code to create comprehensive API documentation.
- Translated complex technical concepts into clear, developer-friendly documentation

Ptero-notes

- Enhanced existing documentation for improved clarity and usability.
- Developed new API documentation for recently added features.

Bioconductor

- Converted Rsamtools documentation from vignette format to RMarkdown.

- Improved accessibility and readability of scientific computing documentation.

Education

Bachelor's Degree in Plant Biology

University of Ilorin
10/2018
4.43/5.0
